

CROSSLAKE FIRE DEPARTMENT ANNUAL REPORT 2018

MESSAGE FROM THE FIRE CHIEF

It is my pleasure to present the 2018 Crosslake Fire Department Annual Report to the Honorable Mayor, distinguished members of the City Council and the citizens of Crosslake.

The mission of the Crosslake Fire Department is to provide the highest level of professional service to the public by protecting lives, property, and the environment.

The Crosslake Fire Department had another progressive year in 2018 responding to 350 calls for service. These calls include fires, rescues, medical emergencies, hazardous materials incidents, and public service requests.

In 2018 The City Council approved a needs assessment study for the Fire Department, Police Department and City Administration. 5 Bugles Design was awarded the study and the results were in line with the study that was conducted in 2009. As the City of Crosslake grows the Emergency Services needs to grow along with it, to provide the best services to our community and visitors.

With the increase in Firefighter cancer awareness as a result of synthetic building materials being used in construction, proper decontamination practices and facilities are a big concern to the Fire Service. In 2018 the Crosslake Fire Department implemented Decon Procedures to help minimize the risk of spreading these contaminants and carcinogens in green zones where personnel spend most of their time (Fire Apparatus, Day Room, Training Room).

This 2018 annual report illustrates our commitment to the citizens of our community. The members of the Crosslake Fire Department take great pride each day to serve the citizens and visitors of Crosslake.

I would like to express my sincere gratitude to all the members of the Crosslake Fire Department and their commitment, dedication and sacrifice in carrying out their responsibilities as a member of this department.

Respectfully,

Chip Lohmiller
Fire Chief
